Simplicity Parenting

Featuring

Kim John Payne, M.Ed.

Registration Form

(see reverse side)

Over the course of this two-day workshop, renowned author, counselor, consultant and educator, Kim John Payne, M.Ed. explains why less is more and presents four simplicity pathways you can take to help your child feel calmer, happier and more secure. This is the workshop which provided the inspiration for Kim's book by the same name (published in August 2009). It not only presents four simple steps, but provides concrete examples of how to bring "the power of less" into your home on a daily basis.

So much of modern life seems to be about more. Very few presentations you will attend will suggest that you do less, but this is one of them! It quietly presents 'do-able' daily ways in which we can simplify our families lives and by doing so build resiliency within our children.
